ernment has entered a formal protest against the language used by Captain Coghian of the Raleigh at the Union League club banquet in New York Inst Friday night. The protest was ledged with Secretary Hay through the German ambassador, Herr von Holleben.

Secretary Hay replied that the language appeared to have been used at a dinner in a club and could not be regarded as an official or public utterance in the sense that it would warrant the state department in acting. However, the navy department was fully competent to take such action as the case seemed to require. With this statement the ambassador was content. for the time at least, and will doubtless await a reasonable length of time upon the navy department.

In Commodore Meade's case, if he stands mute and the newspaper men refuse to testify, the navy department can proceed no further. The charge which would must probably be brought against Captain Coghlan, in case the affair progresses to a court martial, would be conduct to the tleman. So far no response has been received from Captain Coghlan at the navy department. It is expected that the of-ficer will proceed with deliberation in embarrassments that may follow the ex-ecution of the round of receptions already planned for the Raletzh.

The German ambassador appeared at the

He deprecated the lack of tast and the bad justs shown by lack of tast and the bad taste shown by Captain Coghlan and he did not hesitate to let that be known to the German ambassador; but still he held that the case was one that recuired treatment by means of naval discipline only, and one with which the state department could not concern itself. After the conference it was stated in sn authoritative quarter that there was no reason to view the Coghlan affair in the serious a light or as presenting grave international complications. THE IMPORTATION OF NEGROES FORBIDDEN

Governor Jones Says Mine Operators Shall Not Bring Negroes into the State by Wholesale.

Little Rock, Ark., April 24 .- The shuation in the coal mining strike in the western part of the State, which has been on for the past three weeks, is becoming strained to the breaking point, and serious trouble is feared. At a few points riots of an unimportant but ominous nature have occurred. There are still about 6000 miners out in Arkansas and the Indian Territory, and the mines are practically at a standstill.

Now comes the information that the field is to be flooded with negro miners and that the mines may be permitted to resume work. On Saturday evening Judge at Fort Smith issued an injunction re-

on this particular point, and it may be a very important difference for Captain Coghian. The state department's position is that a club is simply the home of the gentleman, and so can not be considered a public affair. is because of a demand for concessions equal in value to that which will be given to the United States in the abrogation of the Clayton Bulwer treaty that the negotiations have not progressed with the promptness at first expected.

It is apparent to the officials that Great Britain proposes to use the proposition to abrigate the treaty to further her own sims in connection with the settlement of the Alaskan boundary and reciprocity questions. Great Britain is determined to

her Northwest territory through Alaska and the United States is not willing to give it to her. It may be therefore that she will suggest that in return for such an outlet she will surrender all her rights in the Nicaragua canal.
